

Self-assessment checklist – COMPUTER GAMES & SIMULATIONS

NAME HG

Name of the game:

CRITERION	H (5-6)	M (3-4)	L (1-2)	NS 0
• Does my program illustrate a scientific concept? Does it show my understanding of this content?				
• Is my program interactive with the user?				
• Does my program incorporate good use of graphics and text?				
• educational value of content				
• level of research into scientific concepts				
• Accuracy of scientific information				
• Is my program user-friendly and easy to use? Is it very unlikely it will crash?				
• Is my program original and not based on someone else's ideas, graphics or other work?				
• Have I included a written explanation less than two A4 pages, presented in a paper manila folder (not plastic) with a copy of the completed Face Sheet firmly attached?				
• Do I have my program on a disk clearly naming the computer used and the memory required?				
• Have I made a second clearly labeled back-disk that I can leave with the judges?				
• Are my graphics and text clear and high quality?				
• Have I arranged my own computer, monitor, leads, power boards and any other necessary equipment ready for judging day?
