

Self-assessment checklist - VIDEOS

NAME HG

Name of the game:

| CRITERION | H (5-6) | M (3-4) | L (1-2) | NS 0 |
|---|--------------------|--------------------|--------------------|-----------------|
| • Does my video focus on an area of science where motion, colour and sound are important? | | | | |
| • Have I focussed on scientific content? Can I demonstrate research into scientific concepts? | | | | |
| • Is my footage original, creative and show clarity of thought? Does it leave an impact on the viewer? | | | | |
| • Does my video emphasise the science involved in the phenomenon/issue I have chosen? | | | | |
| • Is my text or commentary scientifically accurate? | | | | |
| • Is my video original, generated by me and not copied from some other person's video? Are my ideas original? | | | | |
| • Is my video self-contained and not rely on other items such as posters or notes for clarity? | | | | |
| • Have I included a list of credits at the end of the video, including equipment used, references and acknowledgement of help received? | | | | |
| • Does my video provide interest and entertainment value? | | | | |
| • Are my filming and editing skills good quality? | | | | |
| • Is the length of video within the time limit (<5 min – including credits) | | | | |
| • Have I used high-grade DVDs for my original recording and for editing? | | | | |
| • Can I clearly demonstrate an understanding of the scientific content of my video and an explanation of techniques used? | | | | |
| • Have I securely attached my completed Face Sheet, and named both my Disk and its case? | | | | |
| Total Score for Video / 84 ← | | | | |
